Human Resource Manager
Smart Software Ltd.
152/2, (4th F), Panthopath, Dhaka

Subject: Application for the position of "Internship Software Developer - PHP – Laravel".

Respected sir,
Assalamualaikum. I am pleased to write to you today regarding my application for a job at your company. I believe my qualifications and experience make me an ideal candidate for this position.

I have a BSc degree from Rajshahi University, Rajshahi, under Applied Physics and Electronic Engineering. I also finished the M.Engg in Electrical and Electronic Engineering at Rajshahi University. I took the web development training from LICT, Bangladesh. Here I completed an ecommerce project as a group leader. I have also completed many projects on my own using Laravel, Some of these are available at github link https://github.com/mokaddes/Laravel_Admin , https://github.com/mokaddes/laravel_libary_management .

I have excellent communication skills that I use to communicate and motivate others politely. Some strength of mine includes being a hard working and self-motivated individual. Therefore, I believe in my skills, experience and interest that makes me capable to work with team members under supervision. I will optimize these qualities to give the best service for your organization.

I enclosed my resume along with all my educational certificates. I hope I will get a chance to hear from you for an interview.

I am available at my Contact number: 01750899448 or my email address: mr.mokaddes@gmail.com. Thank you for your attention.

With regards

Md.Mokaddes Hosin
